QuicKART 2000/2500

QuicKART 2000/2500

THE **QuicKART** IS A POWERFUL, BATTERY-POWERED SHOPPING CART RETRIEVAL DEVICE. IT CONVERTS WHAT HAS ALWAYS BEEN A STRENUOUS MANUAL TASK INTO AN EFFICIENT AND SAFE MECHANIZED PROCESS. THE **QuicKART 2000** PROVIDES ENOUGH POWER TO EASILY PUSH UP TO THIRTY NESTED SHOPPING CARTS WHILE THE **2500** CAN EASILY PUSH UP TO FORTY CARTS.

THE **QuicKART** IS EFFICIENTLY OPERATED BY A SINGLE EMPLOYEE. IT CAN BE USED IN THE MANUAL MODE AS WELL AS OPERATED IN THE REMOTE CONTROL MODE. THIS 'DUAL MODE' FEATURE ALLOWS A SINGLE OPERATOR TO COLLECT AND RETURN SIGNIFICANTLY MORE CARTS PER TRIP THAN BEFORE. THE **QuicKART** HAS ALLOWED OUR CLIENTS TO REDUCE CART COLLECTION TIME BY UP TO 50%, AND RECOVER THEIR INVESTMENT IN LESS THAN 5 MONTHS!

Benefits

- 50% cut in cart retrieval time/labor.
- Increase associate safety, reduce injuries and related costs.
- Expanded labor pool; everyone can now retrieve carts.
- Improve morale and lower turnover.
- Significant ROI and low total cost of ownership.

Features

- **Electronic System:** 36 Volts; three-12 volt batteries; 16 amp, built-in charger.
- **Motor/Brake:** 36 VDC, 1 H.P. for the 2000, 1.5 H.P. for the 2500, Automatic brake in remote and manual.
- **Safety:** Emergency stop button, warning horn, elevated beacon tower with brake light.
- **Specifications:** QK 2000: Weight -510 lbs., 50" Long, 27.5" Wide, Height with tower 54".
QK 2500: Weight 600 lbs., 51" Long, 27.5" Wide, Height with tower 63.5".
